Our mission & strategy

Biazet mission:

We are able to cooperate in many different business models. We deliver tangible, measurable business results. We are unrivalled in rapidity and time-bound implementation as well as the final delivery. You will recognize Biazet as a real SMART partner.

We define our identity as a socially responsible company, friendly neighbour, transparent for customers, ethical employer and supplier. We believe that this is the best way to build the long-term and trustful business relation.

SOLUTIONS

We work in various business models (CM / ODM / OEM), providing customers the choice of various options of cooperation. We are ready to adapt to the changing customers' needs accompanying them in development.

MEASURABILITY

The results of cooperation with us are tangible and measurable. We are transparent and ready to share information about supply chain and service performance with our customers.

ACCURACY

We are above the average market quality. The quality of our services and products is exactly what customers expect. We are able to be very precise in meeting the needs..

RAPIDITY

While cooperating with us you can be sure, that in every process we have a priority to shorten the durations of every action. You will not find any supplier being more respectful of your time.

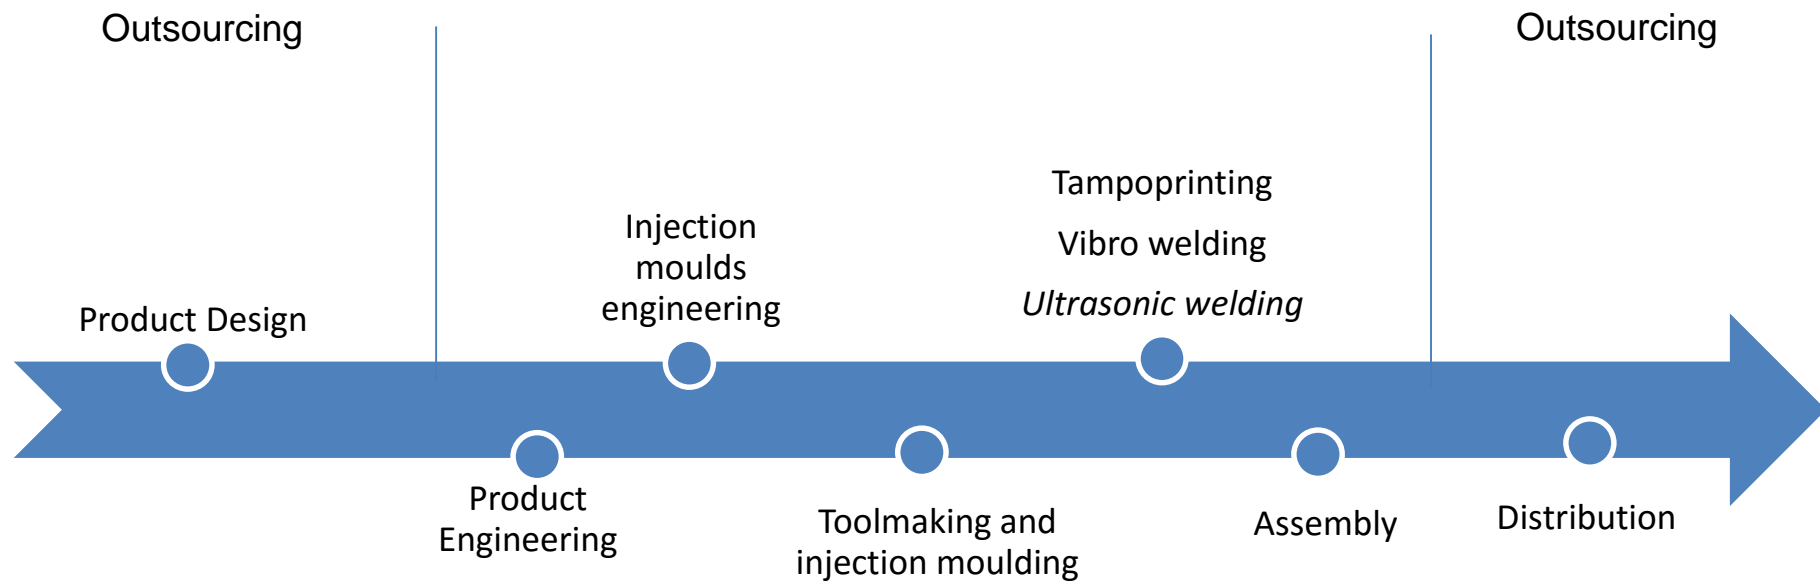

TIME-BOUND

It is not a mastery to deliver on time when the deadline is far away. We are able to work in regime and with discipline, keeping promises that others would not.
