

EMT-SYSTEMS ENGINEERING TRAINING CENTRE

THE UPPER SILESIA AGENCY OF ENTREPRENEURSHIP
AND DEVELOPMENT
16 Wincentego Pola Street

THE SCIENCE AND TECHNOLOGY PARK GLIWICE
18C Konarskiego Street
27 Wincentego Pola Street

Business Profile

We provide specialized trainings for engineers and technical staff in the following areas:

- Power Hydraulics and Industrial Pneumatics,
- CNC Machines and Conventional Lathes,
- Automation / PLC controllers / SCADA,
- Industrial Networks and Industrial Sensors,
- Industrial Robots,
- Mechanical Engineering including Predictive Maintenance and advanced Diagnostics,
- CAD / CAM / CAE systems,
- Material Engineering including Plastics Processing,
- 3D printing,
- Information Technologies,
- Machine Safety,
- Production Quality and Optimization.

Company in figures

13 years of
experience
and constant
development

170 open
and closed
training
programmes

45 specialists
working in seven
departments

over 45 000
people trained
since 2006

25 fully equipped
laboratories

cooperation with
nearly 100 experts
– trainers

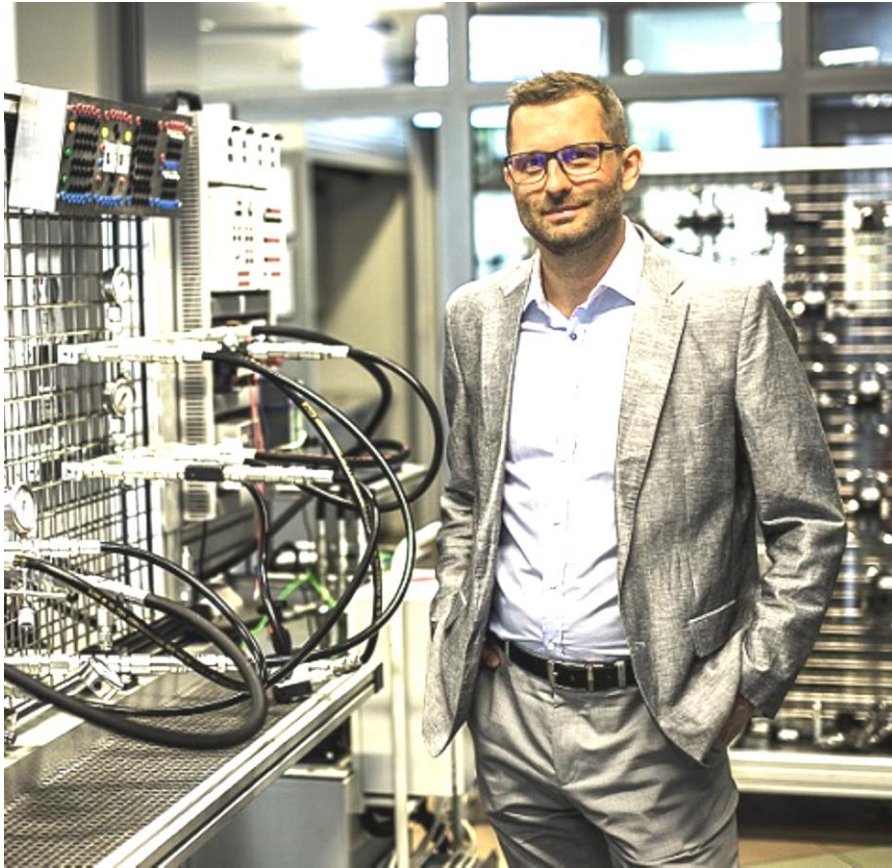

Headquarters

The headquarters of our Centre are located in:

- The Science and Technology Park GLIWICE building
- and
- The Upper Silesian Agency of Entrepreneurship and Development

The beginnings

The Engineering Training Centre EMT Systems was created by the PhD Eng. Grzegorz Wszótek, a former employee of The Institute of Engineering Processes Automation and Integrated Manufacturing Systems Faculty of Mechanical Engineering of the Silesian University of Technology.

The idea for creating technical training services was a result of the participation in a competition „My Idea for Business” organised by The Student Career Office of the Silesian University of Technology in 2006.

The project received praise along with a money reward and then developed into an actual business.

Customers

Two training approaches

- open courses
- closed courses – tailored for individual needs
 - at our premises
 - at customer's premises

EMT Tour – free technical workshops

EMT Tour is the largest in Poland series of free-of-charge technical conferences. It aims to spread good practices in the areas of production and maintenance as well as present the newest ideas and solutions.

40 events | 20 editions | since 2012 | 2000 participants

EMT TOUR

- 2000 participants
- Experts in various industrial fields
- Current problems, innovations and practical solutions
- Networking
- Involvement of leading manufacturers: Siemens, Parker, Balluff, ifm electronics, HYDAC, Beckhoff, Perschmann, etc.
- Cooperation with leading publishers
- Mini exhibition of industrial solutions

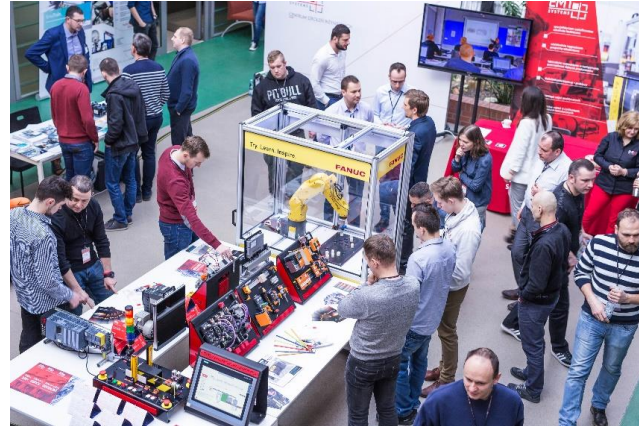

EMT TOUR

- Diagnostics of hydraulic pumps
- Power hydraulics and industrial pneumatics
- Machine Safety
- SIEMENS drive technologies
- CNC systems
- Industrial networks and communication interfaces
- Industry 4.0
- Industrial Robotics
- Industrial sensors of new generation
- Hydrotronics

EMT TOUR

Prizes and Awards

- 2019 **Polish Award of Intelligent Development** in the category of “Innovative technologies of the future”
- 2018 **Golden Statute of the Polish Business Leaders**
- 2018 **Innovation Laurel** for the training: Chemoset and thermoset polymeric composites - introduction to polymer chemistry, composite properties and manufacturing methods
- 2018 **European Medal** for all trainings in: „Industrial Robots”
- 2017 **European Medal** for all trainings in: „Plastics”
- 2016 **Caesar of Silesian Business**
- 2016 **European Medal** for the training: CNC1: CNC operator/programmer”
- 2016 **Highest Quality Gold Emblem**
- 2016 **Training Company of the Year**
- 2015 **Leader of Entrepreneurship**
- 2015 **Enterprise of the Future**
- 2014 **Training Company of the Year**
- **Silesian Innovator 2012**
- **National Leader of Innovation and Development 2012**

Quality standards

In order to prove the quality of provided training services, **The Engineering Training Centre EMT Systems Ltd.** has implemented and is regularly renewing **The Quality of Management** compliant with ISO standards:

- ISO 9001:2015
- ISO 29990:2010

INDUSTRIAL PARTNERS

EU funded projects:

The Engineering Training Centre participates in projects co-financed by the European Union under the European Social Fund.

KAPITAŁ LUDZKI
NARODOWA STRATEGIA SPÓJNOŚCI

INSTITUTIONAL COOPERATION

- Silesian Competence Centre of Industry 4.0
- Silesian University of Technology
- Polish Cluster of Composite Technologies
- Silesia Automotive and Advanced Manufacturing Cluster
- Regional Chamber of Industry and Commerce
- Business Centre Club
- Regional Chamber of Commerce in Katowice
- Gliwice Science and Technology Park ,Technopark'
- TÜV Nord Poland
- Silesian Science and Technology Centre of Aviation Industry
- Global Talents Center

AKADEMIA EMT KIDS

- Minecraft Education
- Minecraft Education in English
- Coding
- Robotics

EMT-System, the largest training centre in Poland

- Effective trainings conducted on the basis of a thorough needs' analysis
- Multiple awards
- Maximum practice, necessary theoretical background
- Pro-learning environment: modern, professionally equipped laboratories, small groups, individual workstations, catering and coffee buffet
- Carefully selected experts with industrial experience
- Educational materials
- Company goodie bags

Thank you
for your attention
