NYC, Palo Alto, Seattle)

who are we ?

Polish Chambers of Commerce Abroad is an international non-profit organisation associating together those polish chambers and business organisations that are accredited by Polish Administration and that are registered abroad.

We do represent the unity of our Members as also their readiness to promote development of economy exchange, cultural relations, know-how and scientific exchange between Poland and the World.

# our goals and our way to reach them

**NETWORKING.** We exchange information about service and activities performed by each of associated chambers and also about the economy and business cooperation between Poland and the specific country of origin for the particular Chamber, in a continuous daily way.

**LOBBYING.** We promote and support any kind of research, reports and works being performed in order to stimulate the growth of business cooperation between Poland and the World. We do it in close cooperation between all or some of our Members, carefully chosen for the requirements of a specific task.

**EVENTS.** We participate and organise participation in fairs, exhibitions, sector conferences and seminars, sector campaigns and other initiatives that contribute to the growth of business exchange between Poland and the World.

# our institutional Partners in Poland today and potential for the future

Based on signed agreement we work in partnership with PAIH

Our potential Partners through dialog which already takes place are: Ministry of Development, Agencja Rozwoju Przemysłu (Industrial Development Agency - ARP); Polski Fundusz Rozwoju; BGK; KUKE and MSZ (economic diplomacy).

Abroad, each of the associated Chambers cooperates daily with Polish Embassy, appropriate Ministries, regional or sector agencies of development and lobbying organizations of entrepreneurs.

In Poland with foreign embassies in Warsaw

# partner organisations today and in a future
