Summary of offer	<i>Import From Israel, Services, Joint Ventures: <b>Solid fertilizer, liquid fertilizer, bio-stimulant, micro-elements, NPK fertilizer, Humic and fulvic acids, Professional agronomic guidance</b></i>
<p>Our company produces bespoke solid and liquid fertilizers, in a wide variety of forms, based on:</p> <ul style="list-style-type: none"> <li>• local soil and water analysis</li> <li>• farmers' requirements</li> <li>• agronomist's recommendations</li> </ul> <p>All in order to provide accurate and optimal nutrition for all agricultural crops. One of our unique strengths is our flexible production line. Along with our tailor-made liquid and solid (granular or soluble) complexes of N-P-K+TE+MgO+Ca, We also have unique products such as Bio-stimulants and foliar feeding. Few of our best sellers products:</p> <ol style="list-style-type: none"> <li>1. Homigreen Barak - Nutrient supplement, improves minerals absorption while enriching the soil with natural organic matter.</li> <li>2. Solimis Aviv – Premium soluble NPK fertilizer, produced especially for Chlorine sensitive crops</li> </ol>	

<p>3. Solimix Negev - Soluble NPK fertilizer, based on white Potassium Chloride.          We strive to protect the environment by preventing water, soil and air contamination; aiming for energy efficiency and recycling waste.          Our responsibility as a company for quality of service and environment safety, is demonstrated in each stage of the process, from the client's order to product arrival, and meets international ISO 9001 and ISO 14001 certifications.          We aim to nourish the soil with minerals essential to the plant, resulting in our products being precise and specific for each crop.</p>

Offer No.	110210
Summary of offer	<i>Import From Israel / Representation: <b>Cold Chain Monitoring System</b></i>
<p>We are an end-to-end, real-time cold chain management (CCM) solution provider. Our Xsense® CCM technology is currently used around the globe by large as well as small-medium companies.          Our Xsense® system is one of the leaders in providing a holistic approach to cold chain management. It proactively monitors, analyzes and disseminates relevant quality data and recommendations throughout the entire cold chain. It provides visibility for all cold chain stakeholders into the conditions in which perishable products are being stored and transported - from the producer to the store shelf.          Automated analytics and reports provide customers with the tools they need to identify cold chain problems and take corrective actions to maintain quality, reduce waste, streamline logistics, and enhance profitability.          We work with our customers to develop innovative, customized solutions that will further maximize supply chain performance.</p>	
Potential Partners	Food Companies, Retailers, Producers.

No. of Employees	Up to 10
<i>Offer No.</i>	<i>110407</i>
Summary of offer	<i>Export to Israel, Representation, Franchises: <b>Applications for Insurance and Financial Industry</b></i>
<p>Our 2 main products:</p> <ol style="list-style-type: none"> <li>1. C4PCI System - A speech recognition algorithm that helps call centers to comply with PCI-DSS (Level 1/2) credit cards data storage requirement. The system is intended for call centers or telemarketing centers. The system receives audio or video files, removes only credit card information and returns the clean files. It is a cost effective solution, easy to install and removes the need to encrypt recorded call files.</li> <li>2. DeepAgent System - A system that empowers controllers at regulated industries such as insurance and financial institutions to review their agents' calls for compliance easily. It consists of a tailored UX/UI interface combined with our novel ML speech recognition technology. The system has a unique feature that can uncover insurance underwriting errors potentially worth millions of dollars when integrating its optional elements to customers' CRM.</li> </ol>	
Potential Partners	Calls recording equipment providers.

	Looking for well established local distributor who can localize our offering. Must have a basic development and support capabilities and well connected in the insurance and/or call centers applications services.
Target Countries	USA, Australia, UK
