Contact Person	<b>Initial contact to be made via the Federation of Israeli Chambers of Commerce:</b> International Relations Division Email: <a href="mailto:chamber@chamber.org.il">chamber@chamber.org.il</a>
Website	<a href="http://www.cybersixgill.com">www.cybersixgill.com</a>
Year of Establishment	2014
No. of Employees	100
Offer No.	126819
Summary of offer	<b>Export: Cyber intelligence service that does automatic monitoring and analysis from the Dark Web</b>
<p><b><u>Description of Offer</u></b></p> <p>Our company, founded in 2014, with about 100 employees, is a cyber threat intelligence company with developed technology that monitors and analyses cyber threats and leaks of sensitive information originating from the Darkweb Network.</p> <p>The company uses advanced artificial intelligence technologies to provide accurate information on what is happening on Darkweb, detects attacks and alerts and responds to threats before they occur. It examines the information and creates profiles by analyzing the behavioral patterns of Darkweb users and the hidden social networks in which they operate while sending real-time alerts. The alerts are done secretly preventing warnings to other players on Darkweb.</p> <p>The main goal is to protect organizations from malicious cyber-attacks before they occur. This is done by enhancing security with cyber-threat intelligence solutions to prevent attacks.</p>	
Other Information	The company seeks to reach those who are responsible for data protection in the organizations.
Potential Partners	Distributors, agents and buyers working in the field of Cyber Security. Internal customer CISO (chief information security officer)
Target Countries	Latin America, Spain, Portugal.

Company Name	<a href="#">Twine Solutions Ltd.</a> (71512)
Contact Person	<b>Initial contact to be made via the Federation of Israeli Chambers of Commerce:</b> International Relations Division Email: <a href="mailto:chamber@chamber.org.il">chamber@chamber.org.il</a>
Website	<a href="http://www.twine-s.com">www.twine-s.com</a>
Year of Establishment	2015
No. of Employees	90
Offer No.	126820
Summary of offer	<b>Export: Digital Thread/Yarn Dyeing Technology</b>
<p><b><u>Description of Offer</u></b></p> <p>We are a tech company that has developed the world's first digital thread/yarn dyeing technology that dyes white/raw/recycled thread using a waterless process.</p> <p>With our dyeing system, brands and manufacturers can dye their thread, in-house, on demand ready for immediate use for their sewing, knitting or embroidery needs. Saving waste from their large MOQs, allowing just in time production in a sustainable way by reducing water use to zero, without compromising on color and creativity.</p> <p>The TS-1800 can dye PET &amp; PBT threads/yarns between 50-800 Den. and meets international standards such as CE and UL.</p>	
Other Information	More suitable for producing samples of yarns in small quantities.
Potential Partners	Fashion brands and fashion manufacturers, designers, fabric dye factories.
Target Countries	Germany, United Kingdom, Spain, Vietnam, Sri-Lanka, Italy, France, Turkey, US, India, China, HK, Taiwan, Japan.

Company Name	<a href="#">Kando Environmental Services Ltd.</a> (74660)
Contact Person	<b>Initial contact to be made via the Federation of Israeli Chambers of Commerce:</b> International Relations Division Email: <a href="mailto:chamber@chamber.org.il">chamber@chamber.org.il</a>
Website	<a href="http://www.kando.eco">www.kando.eco</a>

Year of Establishment	2014
No. of Employees	50
Offer No.	126821
Summary of offer	<b><i>Export: Innovative Digital Solution to support improved public health and the environment by improving wastewater quality, efficiency of utilities around the world</i></b>
<p><b><u>Description of Offer</u></b></p> <p>Our company's services protect public health and the environment, providing water utilities with effective oversight of wastewater systems across the entire urban space. By collecting and analyzing data from sewage, we support cities to manage public health events, improve water quality and availability, and optimize operational practices, all while lowering costs and meeting all the required ISO conditions.</p> <p>Pulse is a wastewater intelligence platform that continuously collects data from wastewater networks with our own proprietary hardware, analyzes that data, and alerts users when health and wastewater quality indicators deviate from expected norms. By combining data inputs from key locations around a client network, Pulse can pinpoint the source of any deviation, estimating disease hotspots and identifying the causes of contamination.</p>	
Other Information	In the last year, another solution has been developed for finding Covid-19 infected areas in the various cities through wastewater monitoring.
Potential Partners	The company cooperates with fields of wastewater services, such as: <ul style="list-style-type: none"> <li>- Water corporations</li> <li>- Municipalities</li> <li>- Operators of wastewater networks</li> <li>- Wastewater treatment plants</li> </ul>
Target Countries	USA, Italy, UK, France, Germany, Australia.
